Filtec supplies technical yarns to a variety of different industries from dental floss to climbing ropes. Our main business is roundslings used for construction, lifting and oil field usage. We are an important upstream supplier to the US Military and were mandated to continue running during the COVID-19 Pandemic by the Dept. of Homeland Security. Our customers supply the Military many different fabrics and straps used in everything from tents to field packs. A growth business for us has been soft armor composites used for flak vests, helmets, Navy Seal Rubber Raiding Crafts and even Armored Humvees.
